11-25-01 Omni - Advance Summar...

Dear All:
This is a file with some preliminary data for the competitive brands of recent interest.
Yep, there are still a lot of holes where data are not yet available.

I think we have a pretty good data set for OMNI TSNA in filler and smoke. This is where I hope you can shed some light.
Please see the worksheet "TSNA" for smoke TSNA and also the worksheet "filler" for filler TSNA.
We also have some info on recent SCoR prototypes for comparison.

As these data are preliminary, and also because we are having an outside lab also do this testing, please do not circulate the information.

Please call with questions. I can walk you through the file - there is a lot of stuff and more to come.

Thanks
